This TSB article is being republished in its entirety to include 1996 and 1997 model year vehicles and the 1998 Contour/Mystique and Windstar.

ISSUE:

Customers may perceive that vehicle fuel economy is lower than it should be, based upon EPA estimates. Fuel economy is most influenced by vehicle usage and duty cycle.

ACTION:

Refer to the 9 page Fuel Economy brochure attached on the back pages of this TSB issue. Consult this brochure and share with customers to improve their understanding of fuel economy factors.
